

MS SQL 2000 Programming

Architecture

- Components
- Concepts
- Interfaces (API's)
- Storage Structures

Constraints

- Concepts
- Defaults

Enterprise Features

- Components
- Concepts
- Distributed Data
- Internet Support (XML)

Indexes

- Concepts
- Design
- Full-Text
- Types

Performance

- Concepts
- Locking
- Tools
- Tuning

Queries

- Modifications
- Retrievals
- Subqueries
- Unions and Joins

Referential Integrity

- Concepts
- Table Constraints
- Table Design
- Table Integrity

Stored Procedures

- Concepts
- Design
- Error Handling
- Parameters

Transact SQL

- Concepts
- Constructs
- Cursors
- Datatypes
- System Functions
- User Defined Functions
- Variables

Transactions

- Concepts
- Design
- Distributed

Triggers

- Concepts
- Design
- DRI

Views

- Concepts
- Design
- Indexed
- Updating

Data Services

- BCP Concepts
- Concepts
- DTS
- Troubleshooting

Databases

- Concepts (Tables/Triggers/Stored Procedures)
- Definition
- Managing

Locking

- Concepts
- Isolation Levels
- Lock Types

Performance

- Concepts
- Contention
- Monitoring
- Profiler
- Query Analyzer
- Tools
- Tuning
